

DANGER

Strong Magnetic and Radio-Frequency Fields Present

Pacemaker & Metallic Implant Hazard

Strong magnetic and radio-frequency fields are present that could cause serious injury or death to persons with implanted or attached medical devices, such as pacemakers and prosthetic parts.

Such persons must not go closer to the magnetic than the 5-GAUSS WARNING signs until safety at closer distance is authorized by medical device manufacture or physician

Magnetic Media and ATM/Credit Cards

Strong magnetic fields are present that could erase magnetic media such as floppies and tapes, disable ATM and credit cards, and damages some watches.

Do not take such objects closer to the magnetic than the 5-GAUSS WARNING signs.

Tools and Equipment

Strong magnetic fields are present that could make some magnetic items suddenly fly towards the magnetic body, which could cause personal injury or serious damage.

Do not take tools, equipment or personal items containing steel, iron, or other magnetic material closer to the magnetic than the 10-GAUSS WARNING signs
