- The scheduled starting time of the class determines the exam time. (Except when one exam time is scheduled for all sections of a course.) When a course is entirely a laboratory, the first hour of meeting determines the examination period. In the case of a lecture and a laboratory or discussion section, the lecture hour determines the exam period.
- Final exams are held in the room where class usually meets.
- The instructor schedules exams for classes that begin after 5:00 p.m.
- Students who have more than two final exams scheduled on the same day may contact their College/School Dean and request that their exam schedule be changed.
